## Let's Face Hard Truths: America Needs A Moral Uprising

f *"The dogmas of the quiet past are inadequate for the stormy present. The occasion is piled high with difficulty and we must rise to the occasion. As our case is new, we must think anew and act anew. We must disenthrall ourselves, and then we shall save our country."*

Abraham Lincoln's siren call to "think anew" is no less relevant today than 150 years ago. Few would argue – stormy times are upon us. If one were to measure the state of the United States by the tone of political rhetoric and social division, it would be rivaling any period since the blood-soaked years of the civil war.
